

PRE-CLASS DOG ASSESSMENT FORM

In order to ensure both you and your dog(s) have a positive and enjoyable experience at your DogFit class, can you please provide us with some information on your dog(s).

How many dogs will you be bringing along to the class?

Please provide the breed and age of your dog(s)?

How much exercise do they currently have?

Are there any medical conditions we should know about?

Are there any behavioural issues we should know about? *

*As your dog is always attached to you when taking part in Canicross, this makes it a wonderful training tool as they are encouraged to socialise with other dogs and people in a safe and controlled way.

Your dog is very welcome - we just ask that you follow the 'DogFit Code of Practice' and take appropriate steps to ensure the safety and comfort of those around you.

You are responsible for your dog at all times so this may mean keeping your dog at a safe distance from the other dogs, running at the back of the group rather than in the middle and using a muzzle if deemed necessary. We would request that all participants have 3rd Party Insurance cover for their dogs before participating in a training class.

Your DogFit instructor reserves the right to exclude a participant from the class if their dog is disruptive.
