

Dog Walking & Outdoor Training Risk Assessment

Thank you for choosing **Woodland Pet Services** (herein referred to as 'WPS')! This assessment is concerned with identifying the hazards (i.e. things which might go wrong or cause an accident/injury), evaluating the likelihood of a particular event occurring (i.e. level of risk) and putting measures in place needed to reduce or eliminate the risk. This risk assessment should be considered in conjunction with any risk assessment associated with the physical venue. Please take the time to familiarise yourself with the control measures that have been put in place to ensure these are effective in helping to mitigate the risk to both you and those around you.

Risk Assessment for WPS on Military Land (Ash Ranges including Tunnel Hill and surrounding areas)

Purpose:	Use of Military Land for Dog Training/Walking purposes
Company:	Woodland Pet Services
Assessment Performed By:	Elisa K Green
Date Assessment Performed:	February 22, 2021

Dog Walking & Outdoor Training Risk Assessment

Hazard	Possible Outcome/Injury	Mitigation	Who?
Risks associated with Dog Walking Activities on MOD Access Managed Land	Causing a Nuisance <ul style="list-style-type: none"> Severity-Medium Likelihood-Low 	Trainers/Handlers will have no more than 6 dogs under their control at any one time. Each dog must have its own lead (no more than 2 retractable leads in use at any one time), dogs must wear a collar with ID tag & be micro-chipped. Canines must always be kept in sight and under control - any dog whose obedience cannot be guaranteed will be kept on a lead and exhibit courteous behaviour to all users. A charged mobile phone will be available for emergency calls. A grid reference will be identified using What3Words in the case of emergency.	WPS
Risks associated with Military Activities including risks associated with; military exercises & manoeuvres, debris and fenced range danger area in the vicinity	Interference and disruption of military exercise or manoeuvre <ul style="list-style-type: none"> Severity-High Likelihood-Low Danger from military debris <ul style="list-style-type: none"> Severity-High Likelihood-Medium Dog enters fenced Danger Area <ul style="list-style-type: none"> Severity-High Likelihood-Low 	Trainers/Handlers will identify military users and adhere to any instructions given and be prepared to alter or move route. Military Debris will not be interfered with in any way and if necessary, routes will be altered to avoid any contact. Trainers/Handlers will not enter unauthorised danger areas. In the unlikely event a dog strays into a restricted area the Trainer/Handler will contact MOD & owner.	WPS
Risks associated with Traffic Activities (Military / Forestry)	Collision with vehicle <ul style="list-style-type: none"> Severity-High Likelihood-Low 	Dogs will be kept under control and on leads when vehicles are present.	WPS

Dog Walking & Outdoor Training Risk Assessment

Hazard	Possible Outcome/Injury	Mitigation	Who?
Risks associated with Members of Public/Other Leisure Users including risks associated with; people/activities in area	Threats from horse riders, other walkers and cyclists <ul style="list-style-type: none"> Severity-Low Likelihood-Medium 	Trainers/Handlers will be aware at all time that other members of the public use the land & be prepared to alter route and/or put dogs on short lead as appropriate.	WPS
Risks associated with Environmental Impact associated with failure to control/contain dog mess/dog urine	Serious ecological damage to plant and animal communities Unhygienic practices also pose a potential health risk to all humans/canines (Parvo in dogs & Toxocariasis in humans). <ul style="list-style-type: none"> Severity-High Likelihood-Low 	Trainers/Handlers will collect dog mess (using biodegradable bags) and place in a transport bag until it can be disposed of properly and safely. Consideration will also be given to where dogs are allowed to urinate; especially when entering woodland and where entrances are adjacent to residential areas. All dogs walked will be fully vaccinated.	WPS
Risks associated with Weather including risks associated with; excessive heat, direct sunlight, rain, sleet/snow, thunder/lightening	Heat stress injuries, sun burn, cold & wetness <ul style="list-style-type: none"> Severity-High Likelihood-High 	Trainers/Handlers will make an assessment as to the risk of extreme weather (hot/cold) prior to travel. Owners will be contacted in advance where special provision/cancellation is required. Where the risk of these activities is deemed to be manageable with appropriate control, Trainers/Handlers will: <ul style="list-style-type: none"> follow the latest Heat Stress Index measures ensure the humans and dogs are well hydrated ensure sufficient protection from the sun and spend as little time as possible in direct sunlight wear protective clothing and footwear dry dogs as best as possible after walk 	WPS

Dog Walking & Outdoor Training Risk Assessment

Hazard	Possible Outcome/Injury	Mitigation	Who?
		Trainers/Handlers will be aware of the dangers of fires during hot spells and be vigilante to ignition sources. Where an potential ignition source is identified the SEOPS Room will be contacted: 01420 483405. In the event of fire, the Trainer/Handler will remove themselves and the canines under their care to safety and contact 999 using What3Words to provide a location.	

While all reasonable measures have been taken to ensure that this document addresses the most common hazards; we respectfully request that any individual using this risk assessment continues to apply common sense and remains alert to any further hazards that may arise during the course of these activities. It remains the responsibility of each individual to ensure that they understand and observe the mitigations put in place and take the appropriate steps to safeguard/protect themselves at all times. WPS cannot be held responsible for the failure of any individual to adhere to the controls outlined within this risk assessment and/or any exposure whilst undertaking any of these activities.
